Audit Scheduling

Audit + scheduling features the management of multiple audits, auditors, audit types, and programs all on a single schedule and automated audit cycles. All auditors are scheduled based on their qualification, so you will never send out the wrong auditor. Audit+ prevents potential scheduling conflicts by identifying when auditors are overbooked and alerting you of the potential conflict. You also don't have the hassle of recreating the entire audit schedule from the scratch. You can repeat the entire audit schedule with just two mouse clicks for any defined duration.
